## Reduce Jackhammer Related Back Injuries & Increase Productivity For Immediate Release!

San Jacinto, CA – Integrated Tool Solutions, LLC (ITS) announces the debut of the **JA90-350 Jackhammer Lift Assist** (patent pending). The Southern California based company developed a 9lb. Bolt-on, pneumatic Jackhammer Lift Assist that currently attaches to a majority of the 90lb. 4-Bolt, 2-Spring type jackhammers available at market. The JA90-350 assists jackhammer operators with the lifting of a jackhammer out of the ground after *each cut*. With a focus on ergonomics and efficiency, ITS developed the Lift Assist with the goal of reducing jackhammer related back injuries while increasing on the job productivity. The JA90-350 proves successful on both fronts; which comes as welcome news to both the construction and utility industries nationwide.

Both construction and utility companies across the United States are experiencing the remarkable benefits of the JA90-350 Jackhammer Lift Assist. Several of these companies include Nicor, Inc (Illinois), NYSEG (New York), SoCal Gas (Southern California), Pacific Gas & Electric (PG&E; Northern California), Avista Corp (Washington) and Pilchuck Contractors, Inc (Washington).

“The JA90-350 Jackhammer Lift Assist is attracting a great deal of attention across the country for its safety and ergonomic benefits. Feedback from the field has been very

positive; field operators using the Lift Assist are reporting a significant reduction of stress on their backs and shoulders resulting in increased productivity.” Steve Guthrie (Dir. Sales & Marketing for ITS). “The success of the JA90-350 Jackhammer Lift Assist in the US has caught the attention of companies overseas as well. The JA90-350 is definitely ‘*Revolutionizing the Jackhammer Industry.*’”

For more information and a 3-part demonstration video of the JA90-350 Jackhammer Lift Assist in action, please visit Integrated Tool Solutions’ website at [www.integratedtoolsolutions.com](http://www.integratedtoolsolutions.com).

The JA90-350 is available direct from ITS or through local distributors. Call for distributors in your area. (951) 929-4808
